National Storage Affiliates Trust Reports First Quarter 2021 Results

GREENWOOD VILLAGE, Colo. - (BUSINESS WIRE) - National Storage Affiliates Trust ("NSA" or the "Company") (NYSE: NSA) today reported the Company's first quarter 2021 results.

First Quarter 2021 Highlights

- Reported net income of \$27.6 million for the first quarter of 2021, an increase of 75.3% compared to the first quarter of 2020. Reported diluted earnings per share of \$0.19 for the first quarter of 2021 compared to \$0.06 for the first quarter of 2020.
- Reported core funds from operations ("Core FFO") of \$51.2 million, or \$0.49 per share for the first quarter of 2021, an increase of 22.5% per share compared to the first quarter of 2020.
- Reported an increase in same store net operating income ("NOI") of 11.5% for the first quarter of 2021 compared to the same period in 2020, driven by an 8.1% increase in same store total revenues partially offset by an increase of 0.6% in same store property operating expenses.
- Reported same store period-end occupancy of 93.8% as of March 31, 2021, an increase of 690 basis points compared to March 31, 2020.
- Settled the remaining portion of the previously announced underwritten public offering completed under forward sale agreements (the "forward offering") by
 physically delivering 3,049,490 common shares of beneficial interest ("common shares") to the forward purchasers on March 22, 2021 for net proceeds of
 approximately \$97.3 million.
- Acquired 23 wholly-owned self storage properties for \$166.0 million during the first quarter of 2021. Consideration for these acquisitions included the issuance
 of \$22.9 million of OP equity.

Highlights Subsequent to Quarter-End

- NSA closed approximately \$204.1 million of additional wholly-owned self storage property acquisitions.
- Entered into an agreement to issue \$180.0 million of senior unsecured notes with a weighted average rate of 2.87% and a weighted average maturity of 9.6 years in a private placement to certain institutional investors.

Tamara Fischer, President and Chief Executive Officer, commented, "We are off to an exceptional start in 2021, with first quarter same store NOI growth of 11.5% and over \$370 million of acquisitions closed year to date. The self storage sector and our portfolio continue to benefit from a surge in customer demand, which is driving occupancies to all time highs and fueling our revenue management strategies. Further, the acquisition market remains very active and we are realizing the benefits of our unique PRO structure, which essentially provides us with 10 acquisition teams across the country, in addition to our corporate acquisition team. Given the favorable results in the first quarter, and the impressive momentum that we are experiencing thus far in the second quarter, we have raised our same store NOI and core FFO per share guidance for 2021. It's a great time to be in the self storage business."

(1) Non-GAAP financial measures, including FFO, Core FFO and NOI, are defined in the Glossary in the supplemental financial information and, where appropriate, reconciliations of these measures and other non-GAAP financial measures to their most directly comparable GAAP measures are included in the Schedules to this press release and in the supplemental financial information.

Net income increased \$11.9 million for the first quarter of 2021 as compared to the same period in 2020. The increase resulted primarily from additional NOI generated from the 41 self storage properties acquired between April 1, 2020 and December 31, 2020, 23 wholly-owned self storage properties acquired during the first quarter of 2021 and same store NOI growth of 11.5% for the first quarter of 2021 compared to the same period in 2020, partially offset by increases in depreciation and amortization.

The increase in FFO and Core FFO for the first quarter of 2021 was primarily the result of incremental NOI from properties acquired between April 1, 2020 and March 31, 2021 and same store NOI growth.

Same Store Operating Results (560 Stores)

(\$ in thousands, except per square foot data)	Three Months Ended March 31,					
	2021		2020	Growth		
Total revenues	\$ 101,517	\$	93,874	8.1 %		
Property operating expenses	28,833		28,661	0.6 %		
Net Operating Income (NOI)	\$ 72,684	\$	65,213	11.5 %

Average Occupancy	 92.5 %		86.9 %	5.6 %		
Average Annualized Rental Revenue Per Occupied Square Foot	\$ 12.47	\$	12.30	1.4 %		

Year-over-year same store total revenues increased 8.1% for the first quarter of 2021 as compared to the same period in 2020. The increase was driven primarily by a 560 basis point increase in average occupancy and a 1.4% increase in average annualized rental revenue per occupied square foot. Markets which generated above portfolio average same store total revenue growth include: Portland, Phoenix, Sarasota and Houston. Markets which generated below portfolio average same store total revenue growth include: Atlanta, Dallas, Los Angeles and Tulsa.

Year-over-year same store property operating expenses increased 0.6% for the first quarter of 2021 as compared to the same period in 2020. The increase primarily resulted from increases in property taxes, utilities and repairs and maintenance expense offset by decreases in personnel and marketing expense.

Investment Activity

During the first quarter, NSA invested approximately \$166.0 million in the acquisition of 23 self storage properties consisting of approximately 1.5 million rentable square feet configured in approximately 11,300 storage units. Total consideration for these acquisitions included approximately \$141.9 million of net cash, the issuance of approximately \$13.6 million of OP units and \$9.3 million of subordinated performance units and the assumption of approximately \$1.1 million of other liabilities.

Balance Sheet

On March 22, 2021, the Company settled the remaining portion of the previously announced forward offering by physically delivering 3,049,490 common shares to the forward purchasers for net proceeds of approximately \$97.3 million. The Company used the proceeds to acquire self storage properties, repay outstanding amounts on its revolving line of credit and for general corporate purposes.

During the first quarter, the Company received approximately \$25.1 million of net proceeds from the sale of 642,726 common shares under the Company's at the market ("ATM") program. Subsequent to quarter end, the Company received approximately \$53.0 million of net proceeds from the sale of 1,320,000 common shares under the ATM program.

On April 8, 2021, Kroll Bond Rating Agency affirmed the issuer credit rating of the Company's operating partnership at BBB and revised its outlook to Positive from Stable.

On May 3, 2021, the Company's operating partnership entered into an agreement to issue \$35.0 million of 2.16% senior unsecured notes due May 4, 2026 (the "2026 Notes"), \$90.0 million of 3.00% senior unsecured notes due May 4, 2031 (the "May 2031 Notes") and \$55.0 million of 3.10% senior unsecured notes due May 4, 2033 (the "2033 Notes"). The funding of the 2033 Notes is expected to occur on or before May 26, 2021 and the funding of the 2026 Notes and the May 2031 Notes is expected to occur on or before July 26, 2021, subject to customary closing conditions. The Company plans to use the proceeds to repay outstanding amounts on its revolving line of credit and for general corporate purposes.

Common Share Dividends

On February 25, 2021, NSA's Board of Trustees declared a quarterly cash dividend of \$0.35 per common share, which was paid on March 31, 2021 to shareholders of record as of March 15, 2021.

Non-GAAP Financial Measures & Glossary

This press release contains certain non-GAAP financial measures. These non-GAAP measures are presented because NSA's management believes these measures help investors understand NSA's business, performance and ability to earn and distribute cash to its shareholders by providing perspectives not immediately apparent from net income (loss). These measures are also frequently used by securities analysts, investors and other interested parties. The presentations of FFO, Core FFO and NOI in this press release are not intended to be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP. In addition, NSA's method of calculating these measures may be different from methods used by other companies, and, accordingly, may not be comparable to similar measures as calculated by other companies that do not use the same methodology as NSA. These measures, and other words and phrases used herein, are defined in the Glossary in the supplemental financial information and, where appropriate, reconciliations of these measures and other non-GAAP financial measures to their most directly comparable GAAP measures are included in the Schedules to this press release and in the supplemental financial information.

Glossary

This Earnings Release and Supplemental Financial Information includes certain financial and operating measures used by NSA management that are not calculated in accordance with accounting principles generally accepted in the United States, or GAAP. NSA's definitions and calculations of these non-GAAP financial and operating measures and other terms may differ from the definitions and methodologies used by other real estate companies and, accordingly, may not be comparable. These non-GAAP financial and operating measures should not be considered an alternative to GAAP net income or any other GAAP measurement of performance and should not be considered an alternative measure of liquidity.

2016 JOINT VENTURE: NSA's 2016 Joint Venture was formed in 2016 with a major state pension fund advised by Heitman Capital Management LLC. NSA's ownership in the 2016 Joint Venture is 25% and NSA earns customary fees for managing and operating the 2016 Joint Venture properties. In connection with the 2016 Joint Venture's acquisition of an initial portfolio of self storage properties, NSA separately acquired the property management platform related to the initial portfolio, including a property management company, and related intellectual property, including the iStorage brand, under which NSA's management platform operates the 2016 Joint Venture.

2018 JOINT VENTURE: NSA's 2018 Joint Venture was formed in 2018 with an affiliate of Heitman America Real Estate REIT LLC to acquire a portfolio of over 100 self storage properties. NSA's ownership in the 2018 Joint Venture is 25% and NSA earns customary fees for managing and operating the 2018 Joint Venture properties. The 2018 Joint Venture properties are operated by NSA's management platform under NSA's iStorage and SecurCare brands.

AVERAGE ANNUALIZED RENTAL REVENUE PER OCCUPIED SQUARE FOOT: Average annualized rental revenue per occupied square foot is computed by dividing annualized rental revenue (including fees and net of any discounts and uncollectible customer amounts) by average occupied square feet.

AVERAGE OCCUPANCY: Average occupancy is calculated based on the average of the month-end occupancy immediately preceding the period presented and the month-end occupancies included in the respective period presented.

CAPITAL EXPENDITURES DEFINITIONS

ACQUISITIONS CAPITAL EXPENDITURES: Acquisitions capital expenditures represents the portion of capital expenditures capitalized during the current period that were identified and underwritten prior to a property's acquisition.

RECURRING CAPITAL EXPENDITURES: Recurring capital expenditures represents the portion of capital expenditures that are deemed to replace the consumed portion of acquired capital assets and extend their useful lives.

VALUE ENHANCING CAPITAL EXPENDITURES: Value enhancing capital expenditures represents the portion of capital expenditures that are made to enhance the revenue and value of an asset from its original purchase condition.

EBITDA: NSA defines EBITDA as net income (loss), as determined under GAAP, plus interest expense, loss on early extinguishment of debt, income taxes, depreciation and amortization expense and the Company's share of unconsolidated real estate venture depreciation and amortization. NSA defines **ADJUSTED EBITDA** as EBITDA plus acquisition costs, organizational and offering expenses, equity-based compensation expense, losses on sale of properties and impairment of long-lived assets, minus gains on sale of properties and debt forgiveness, and after adjustments for unconsolidated partnerships and joint ventures. These further adjustments eliminate the impact of items that the Company does not consider indicative of its core operating performance. In evaluating EBITDA and Adjusted EBITDA, you should be aware that in the future the Company may incur expenses that are the same as or similar to some of the adjustments in this presentation. NSA's presentation of EBITDA and Adjusted EBITDA should not be construed as an inference that its future results will be unaffected by unusual or non-recurring items.

NSA presents EBITDA and Adjusted EBITDA because the Company believes they assist investors and analysts in comparing the Company's performance across reporting periods on a consistent basis by excluding items that the Company does not believe are indicative of its core operating performance. EBITDA and Adjusted EBITDA have limitations as an analytical tool. Some of these limitations are:

- EBITDA and Adjusted EBITDA do not reflect the Company's cash expenditures, or future requirements, for capital expenditures, contractual commitments or working capital needs;
- EBITDA and Adjusted EBITDA do not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on the Company's debts;
- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA and Adjusted EBITDA do not reflect any cash requirements for such replacements;
- Adjusted EBITDA excludes equity-based compensation expense, which is and will remain a key element of the Company's overall long-term incentive compensation package, although the Company excludes it as an expense when evaluating its ongoing operating performance for a particular period;
- EBITDA and Adjusted EBITDA do not reflect the impact of certain cash charges resulting from matters the Company considers not to be indicative of its
 ongoing operations; and
- other companies in NSA's industry may calculate EBITDA and Adjusted EBITDA differently than NSA does, limiting their usefulness as comparative measures.

NSA compensates for these limitations by considering the economic effect of the excluded expense items independently as well as in connection with the Company's analysis of net income (loss). EBITDA and Adjusted EBITDA should be considered in addition to, but not as a substitute for, other measures of financial performance reported in accordance with GAAP, such as total revenues and net income (loss).

FUNDS FROM OPERATIONS: Funds from operations, or FFO, is a widely used performance measure for real estate companies and is provided here as a supplemental measure of the Company's operating performance. The December 2018 Nareit Funds From Operations White Paper - 2018 Restatement, which the Company refers to as the White Paper, defines FFO as net income (as determined under GAAP), excluding: real estate depreciation and amortization, gains and losses from the sale of certain real estate assets, gains and losses from change in control, mark-to-market changes in value recognized on equity securities, impairment write-downs of certain real estate assets and impairment of investments in entities when it is directly attributable to decreases in the value of depreciable real estate held by the entity and after items to record unconsolidated partnerships and joint ventures on the same basis. Distributions declared on subordinated performance units and DownREIT subordinated performance unitholders. For purposes of calculating FFO attributable to common shareholders, OP unitholders, and LTIP unitholders, NSA excludes distributions declared on subordinated performance units, preferred shares and preferred units. NSA defines **CORE FFO** as FFO, as further adjustments consist of acquisition costs, organizational and offering costs, gains on debt forgiveness, gains (losses) on early extinguishment of debt, and after adjustments for unconsolidated partnerships and joint ventures.

Management uses FFO and Core FFO as key performance indicators in evaluating the operations of NSA's properties. Given the nature of NSA's business as a real estate owner and operator, the Company considers FFO and Core FFO as key supplemental measures of its operating performance that are not specifically defined by GAAP. NSA believes that FFO and Core FFO are useful to management and investors as a starting point in measuring the Company's operational performance because FFO and Core FFO exclude various items included in net income (loss) that do not relate to or are not indicative of the Company's operating performance such as gains (or losses) from sales of self storage properties and depreciation, which can make periodic and peer analyses of operating performance more difficult. NSA's computation of FFO and Core FFO may not be comparable to FFO reported by other REITs or real estate companies.

FFO and Core FFO should be considered in addition to, but not as a substitute for, other measures of financial performance reported in accordance with GAAP, such as total revenues, operating income and net income (loss). FFO and Core FFO do not represent cash generated from operating activities determined in accordance with GAAP and are not a measure of liquidity or an indicator of NSA's ability to make cash distributions. NSA believes that to further understand the Company's performance, FFO and Core FFO should be compared with the Company's reported net income (loss) and considered in addition to cash flows computed in accordance with GAAP, as presented in the Company's consolidated financial statements.

HYPOTHETICAL LIQUIDATION AT BOOK VALUE METHOD: In accordance with GAAP, the Company allocates income (loss) utilizing the hypothetical liquidation at book value ("HLBV") method, in which the Company allocates

income or loss based on the change in each unitholders' claim on the net assets of the Company's operating partnership at period end after adjusting for any distributions or contributions made during such period. The Company uses this method because of the difference between the distribution rights and priorities set forth in the operating partnership's Agreement of Limited Partnership and what is reflected by the underlying percentage ownership interests of the unitholders.

The HLBV method is a balance sheet-focused approach to income (loss) allocation. A calculation is prepared at each balance sheet date to determine the amount that unitholders would receive if the operating partnership were to liquidate all of its assets (at GAAP net book value) and distribute the resulting proceeds to its creditors and unitholders based on the contractually defined liquidation priorities. The difference between the calculated liquidation distribution amounts at the beginning and the end of the reporting period, after adjusting for capital contributions and distributions, is used to derive each unitholder's share of the income (loss) for the period. Due to the stated liquidation priorities and because the HLBV method incorporates non-cash items such as depreciation expense, in any given period, income or loss may be allocated disproportionately to unitholders as compared to their respective ownership percentage in the operating partnership, and net income (loss) attributable to National Storage Affiliates Trust could be more or less net income than actual cash distributions received and more or less income or loss than what may be received in the event of an actual liquidation. Additionally, the HLBV method could result in net income (or net loss) attributable to National Storage Affiliates Trust during a period when the Company reports consolidated net loss (or net income), or net income (or net loss) per share may be materially affected by these disproportionate income (loss) allocations, resulting in volatile fluctuations of basic and diluted earnings (loss) per share may be materially affected by these disproportionate income (loss) allocations, resulting in volatile fluctuations of basic and diluted earnings (loss) per share. Readers and investors are cautioned not to place undue reliance on NSA's income (loss), net book value and the application of the HLBV method.

LONG-TERM INCENTIVE PLAN UNITS: Long-term incentive plan units, or LTIP units, are a special class of partnership interest in NSA's operating partnership that allow the holder to participate in the ordinary and liquidating distributions received by holders of the operating partnership units (subject to the achievement of specified levels of profitability by our operating partnership or the achievement of certain events). Upon vesting, and after achieving parity with operating partnership units, vested LTIP units may be converted into an equal number of operating partnership units, and thereafter have all the rights of operating partnership units, including redemption rights.

NET DEBT TO ANNUALIZED CURRENT QUARTER ADJUSTED EBITDA: NSA calculates net debt to Adjusted EBITDA as total debt (inclusive of \$5.4 million of fair value of debt adjustments and \$10.7 million of debt issuance costs) less cash and cash equivalents, divided by annualized current quarter Adjusted EBITDA.

NET OPERATING INCOME: Net operating income, or NOI, represents rental revenue plus other property-related revenue less property operating expenses. NOI is not a measure of performance calculated in accordance with GAAP.

NSA believes NOI is useful to investors in evaluating the Company's operating performance because:

- NOI is one of the primary measures used by NSA's management and the Company's PROs to evaluate the economic productivity of the Company's
 properties, including the Company's ability to lease its properties, increase pricing and occupancy and control the Company's property operating
 expenses;
- NOI is widely used in the real estate industry and the self storage industry to measure the performance and value of real estate assets without regard to
 various items included in net income that do not relate to or are not indicative of operating performance, such as depreciation and amortization, which can
 vary depending upon accounting methods, the book value of assets, and the impact of NSA's capital structure; and
- NSA believes NOI helps the Company's investors to meaningfully compare the results of its operating performance from period to period by removing the impact of the Company's capital structure (primarily interest expense on the Company's outstanding indebtedness) and depreciation of the cost basis of NSA's assets from its operating results.

There are material limitations to using a non-GAAP measure such as NOI, including the difficulty associated with comparing results among more than one company and the inability to analyze certain significant items, including depreciation and interest expense, that directly affect the Company's net income (loss). NSA compensates for these limitations by considering the economic effect of the excluded expense items independently as well as in connection with the Company's analysis of net income (loss). NOI should be considered in addition to, but not as a

substitute for, other measures of financial performance reported in accordance with GAAP, such as total revenues and net loss.

NET OPERATING INCOME MARGIN: The ratio of NOI divided by total rental and other property-related revenue.

NON-SAME STORE PORTFOLIO: Non-same store portfolio comprises those properties that do not meet the Same Store portfolio property definition.

OCCUPANCY AT PERIOD END: Represents total occupied rentable square feet divided by total rentable square feet at period end.

OPERATING PARTNERSHIP UNITS: Operating partnership units, or OP Units, are Class A common units of limited partner interest in the Company's operating partnership which are economically equivalent to NSA's common shares. NSA also owns certain of the Company's self storage properties through other consolidated limited partnership subsidiaries of the Company's operating partnership, which the Company refers to as "DownREIT partnerships." The DownREIT partnerships issue certain units of limited partner or limited liability company interest that are intended to be economically equivalent to the Company's OP units, which the Company defines as **DOWNREIT OPERATING PARTNERSHIP UNIT EQUIVALENTS**, or DownREIT OP units.

PROs: Participating regional operators, or "PROs", are NSA's experienced regional self storage operators with local operational focus and expertise. As of March 31, 2021, the Company had ten PROs: Northwest Self Storage, Optivest Properties, Guardian Storage Centers, Move It Self Storage, Storage Solutions, Hide-Away, Personal Mini, Southern Self Storage, Moove In Self Storage and Blue Sky Self Storage.

RENTABLE SQUARE FEET: Rentable square feet includes all enclosed self storage units but excludes commercial, residential, and covered parking space.

RESTRICTED COMMON SHARES: Restricted common shares are common shares that are subject to restrictions on transferability subject to vesting and such other restrictions. Generally, a participant granted restricted common shares has all of the rights of a shareholder, including, without limitation, the right to vote and the right to receive dividends on the restricted common shares. Holders of restricted common shares are prohibited from selling such shares until they vest.

SAME STORE PORTFOLIO: NSA's same store portfolio is defined as those properties owned and operated since the first day of the earliest year presented, excluding any properties sold, expected to be sold or subject to significant changes such as expansions or casualty events which cause the portfolio's year-overyear operating results to no longer be comparable.

SUBORDINATED PERFORMANCE UNITS: Subordinated performance units, or SP Units, are Class B common units of limited partner interest in the Company's operating partnership. SP units, which are linked to the performance of specific contributed portfolios, are intended to incentivize the Company's PROs to drive operating performance and support the sustainability of the operating cash flow generated by the contributed self storage properties that the PROs continue to manage on NSA's behalf. Because subordinated performance unit holders receive distributions only after portfolio-specific minimum performance thresholds are satisfied, the Company believes SP units play a key role in aligning the interests of the Company's PROs with NSA and the Company's shareholders. The DownREIT partnerships also issue units of limited partner interest that are intended to be economically equivalent to the Company's SP units, which the Company defines as **DOWNREIT SUBORDINATED PERFORMANCE UNIT EQUIVALENTS**, or DownREIT SP units.
